

# simplehuman®

## steel frame dishrack with wine glass holder

### Description:

The simplehuman steel frame dishrack has an elegant solid steel frame to match the aesthetic of modern upscale kitchen appliances. A fingerprint-proof coating helps protect against smudges, and a natural bamboo knife block is gentle on sharp blades. The wine glass holder allows you to hang up to four extra large wine glasses upside down by the stem, so they'll dry quickly and safely with no water spots. The extendable drip tray pulls out below the cup holders to catch drips. The drip tray, utensil holder, and inner wire frame are all dishwasher safe.

### Features:

- you wash, I'll dry: Our dishracks have an innovative drainage system that keeps water flowing into the sink, not onto the countertop.
- swivel spout: Spout pivots to drain water directly into the sink.
- fingerprint-proof: Fingerprint-proof finish resists smudges to keep stainless steel shiny.
- wine glass holder: Hang up to four wine glasses upside down by the stem, so they'll dry quickly and safely with no water spots.
- fits large glasses: The removable wine glass holder is tall enough to accommodate extra large glasses.
- folding drip tray: A folding drip tray flips down underneath the wine glass holder to catch any drips.
- extendable drip tray: Pulls out below the cup holders to catch drips.
- utensil holder: Separate compartments keep utensils neat and organised.
- natural bamboo knife block: Stores knives safely and is gentle on sharp blades.
- coated steel wire: Soft, coated steel wire protects dishes against chips and scratches.
- easy to clean: Utensil holder and wire frame are top-rack dishwasher safe; clean all other parts with warm, soapy water.
- adjustable height: Includes extra feet for higher sinks.
- rustproof materials: Durable, long-lasting materials won't rust or discolour.

### Dimensions:

- 51.3cm x 55.25cm x 36.2cm (W.D.H.)

### Warranty

- 5 years

### about simplehuman – tools for efficient living®

simplehuman was founded in 2000 in Los Angeles with the goal to make it easier and more efficient to “take out the trash”. The success of its first pedal bin led the company to expand its mission to create “tools for efficient living” — products designed to help make people more efficient at home. The company now has more than 100 products that are sold throughout the world by leading retailers.
